a) Management Interim Report of the AD Plastik Group and company AD Plastik Inc. Solin for the period 01.01.-30.06.2012.

Financial reports of the AD Plastik Group for the period 01.01. - 30.06.2012.

Indicator	01.01 30.06.2012.	01.01 30.06.2011.	Rate of change %
(AOP 112) Sales revenue (thousands of HRK)	380.499	363.872	4.6%
(AOP 152) Net profit (thousands of HRK)	36.254	38.140	-4.9%
Debt Ratio	0,4076	0,4144	-1.7%

In the period January-June AD Plastik Group had 4.6% sales revenue growth compared with same period last year.

Net profit amounted 36.3 million HRK, while in the same period of last year amounted 38.1 million HRK. There are several reasons for the decrease in net profit margin, the most important are:

- Operating costs of new acquisitions have been present since the beginning of the year
- Weakening of the Russian ruble (RUB) in relation to the EUR in the second quarter for approx. 5.5% In the first half of 2012 larger part of management activities was focused on new acquisitions in Mladenovac and Kaluga. We can abstract following events that affected or shall affect business:
- In the first half of the year our largest customers (Renault, Peugeot) decreased production compared to the initial plans. Unlike previous years, customers frequently change plans, where is very important fast adaptation of plans with all business expenses.
- AD Plastik d.d., does monthly control of plans, to which we align all costs and take into account realization of all project activities. The parent company has already started preparations for Edison Project (Renault Daimler), and we are working on other projects for customers Renault, PSA, Ford, VAZ
- In the first half of the year we bought equipment from M-Prointex in Mladenovac, Serbia, while purchase of property was realized in December 2011. We took over existing manufacturing of building isolation, area was adopted and equipment installed for the new Fiat car. Serial production and deliveries for Fiat program started at beginning of July.
- In Kaluga, Russia, we finished activities on area adaption. Equipment for the production of isolation was installed and tests were made. Currently the installation of equipment for production of carpets is in progress. The start of serial deliveries from this site will be in August. In February, the company made reregistration of ADP Luga to ADP Kaluga.
- Company ZAO PHR, Samara (ADP Togliatti, Russia) in the first half of the year, achieved better sales revenue than planned, and we expect that this trend will continue in future. In second quarter we won nomination for new Logan which will be produced in Avtoframos. The start of production is planned for mid-2013 and in full year of production we should double current sales revenue. At the beginning of July we got a loan from EBRD in RUB (equivalent 7 mil. EUR), which will significantly reduce the current foreign exchange risk.
- Production in the Romanian company is stable and we can say that Dacia brand is one of the few cars that had no negative fluctuations in the market for the first half of the year, which is shown by realization and

profit achievement above plan. Stable trend can be expected in the second half of the year. In the second quarter decision was made about dividend payment from Romanian company, which is included in income of parent company.

- FADP Luga, Russia in first half of the year, achieved full capacity utilization of the facility, and continues
 with activities aimed at optimizing costs. Activities have been initiated for replacement of existing loans
 through EBRD.
- Given the intense investment activity of the Group, part of activities are focused on getting the incentives and subsidies from the states in which we invest. In Serbia, regarding our investments and new employment we got the Decision on the possibility of using incentives, and incentives are expected in Croatia and Russia.
- In February, we made an advance payment of dividend to the amount of kn 2.47/share, and remaining part of dividend in amount of 5.53 kn per share will be paid until 18th of August.

On June 30th, 2012 the Group had 2545 employees, which of 824 were in the parent company AD Plastik Inc. Solin.

On June 30th, 2012 the share capital of the parent company AD Plastik Inc. amounted kuna 419.958.400, and it haven`t been changed

In Group's balance sheet positions biggest gain was recorded in these positions:

- (AOP 010) Tangible assets (20.7 mil. HRK) for realization of investment in Mladenovac and Kaluga (real estate and equipment);
- (AOP 035) Inventories (12.1 mil. HRK), primarily due to the large growth stocks of tools (preparation for new products);
- (AOP 046) Receivables from participating businesses are greater because of claims voted for a dividend.
- (AOP 049) Other receivables the most important item is advances paid to suppliers for tools and other capital investments.
- (AOP 086 and AOP 096) Liabilities to banks increased by 35 mil.HRK which occurred due to financing of realization of the investment cycle.

Basic consolidated financial statements include: the quarterly data for AD Plastik Inc. Solin, ADP Kaluga, Russia, ZAO PHR Togliatti, Russia, AD Plastik Ltd., Slovenia, ADP Mladenovac, Serbia and SG Plastik Ltd., Solin, Croatia. Results of associated companies EAPS Romania and FADP Holding France are included in the Group under the equity method..

EXPECTATIONS AND STRATEGIC DIRECTIONS FOR 2012

Given the current unfavorable macroeconomic environment, goals for 2012 are as follows:

- ✓ Start of serial deliveries for new projects, and complete effective integration of new locations in Serbia and Russia in to business systems of AD Plastik Group on all levels
- ✓ Regular review of business plans of all group companies, and fast alignment of costs with revenue
- ✓ Start of capital investment in AD Plastik Inc. In property and equipment, necessary for successful implementation of project Edison (serial production is planned for early 2014)
