Comment by Marinko Došen, President of the Management Board

In the first six months we have achieved good operating revenue, despite the fact that the strengthening of the Kuna (HRK) against the Euro (EUR) has been recorded. The realized revenue of the AD Plastik Group amounted to HRK 531.3 million in the reporting period, showing an increase of 3.7 percent, compared to the same period last year. Net profit for the first six months amounts to HRK 38.9 million, which presents an increase of 38.3 percent, compared to the first six months of last year.

Good results achieved in the first six months are the result of a clear strategy and vision of the company development, that we set two years ago, as well as successful production, thoughtful and quality cost management. This is also supported by the reduction of the company's credit indebtedness amounting to HRK 65.5 million in the first six months, which confirms the trend of strengthening of the AD Plastik Group's financial position.

The Russian market is clearly stabilizing, which shows a growth in operating revenue of 18.8 percent in that market, and thus the share of operating revenue from the Russian market in the Group's total revenue is growing.

I often mention exchange rate policy as one of the biggest problems for exporters in Croatia, because the strong Kuna (HRK) against the Euro (EUR) has a significant impact on the overall results of our business and the amount of revenue earned. On the other hand, the Russian Ruble (RUB) exchange rate in that period had a positive impact on our business. It is important to point out the increase in production volume, compared to the same period last year, as this is what ensures us a successful business

In the observed period, we also made new deals with our Ford and Hella customers, worth over EUR 30 million. All of this enables continuous growth of our company's market value. Thus, over the past period, the value of our share has grown, which shows how the strategy of increasing efficiency of production and cost rationalization is a viable and long-term sustainable direction.

Satisfied with the results that we have achieved and ready to respond to new challenges, we continue to work on creating a successful and stable company.

Financial results for the first six months

AD Plastik Group is comprised of the following companies during the reporting period:

- AD Plastik d.d. Croatia,
- ADP d.o.o. Serbia,
- AD Plastik d.o.o. Slovenia,
- AO AD Plastik Vintai, Russia and
- ZAO AD Plastik Kaluga, Russia

(hereinafter: **AD Plastik Group**)

Operating revenue of AD Plastik Group realized in the first six months of 2017 amounted to HRK 531.3 million, which is 3.7% higher than the operating revenue realized in the same period last year. Despite the fact that in this year we note a further strengthening of the Kuna (HRK) against the Euro (EUR), which negatively affects the amount of operating revenues realized by AD Plastik d.d., and thus the overall results of AD Plastik Group's operating results, revenue growth has been achieved. At the same time, in the first half of 2017, Ruble (RUB) Exchange rate had positive impact, although in the last two months the Ruble (RUB) weakened again due to the fall in prices of oil.

In the observed period, the growth in operating expenses is lower than the growth in operating revenue, primarily thanks to the strategy of the Management Board of AD Plastik Group, that has been working intensively for a long time to increase production efficiency and cost rationalization. The result of cost efficiency activities is reflected in the further growth of Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) of 13.8% compared to the same period last year. Realized EBITDA for the first six months of 2017 amounts to HRK 85.4 million, and the EBITDA margin is 16.07%.

The Net profit of AD Plastik Group in the first six months of 2017 amounts to HRK 38.9 million, which is 38.3% more than the Net profit realized in the same period last year. It should be noted that the growth in Net profit, among other things, comes from reducing financial costs, i.e. the interest on loans and the reduction of credit indebtedness, which is a result of two years of our effort in finding the best solution.

Financial position of AD Plastik Group

The AD Plastik Group's financial position improvement trend started in 2015, but has accelerated further in the second quarter of 2017, with a reduction in the loan indebtedness by HRK 65.5 million, compared to December 31, 2016. This significant debt reduction is partially financed by the repayment of the loan with the relevant interest rates given to the company 000 Faurecia AD in Luga, that was 40 percent owned by AD Plastik Group through JV Faurecia ADP Holding s.a.s. by December last year.

Long-term financing of investment in the project "Pilot painting line for industrial research, development and innovation" started in early 2017 and will continue in the third quarter of 2017.

Compared to December 31, 2016, receivables from customers increased by HRK 37.4 million. Total liabilities to suppliers decreased by HRK 3.1 million compared to December 31, 2016, while for the previous quarter they were re-

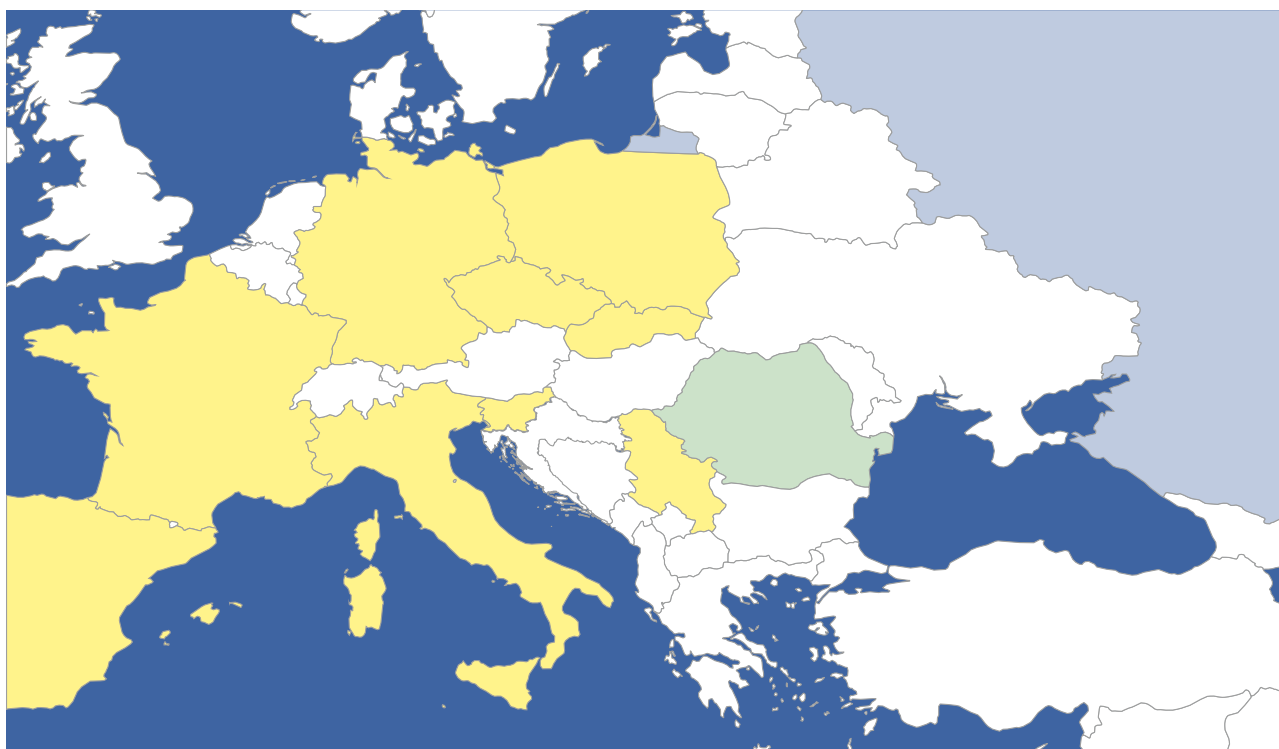

- duced by HRK 17 million. All this indicates that the AD Plastik Group uses generated liquidity in order to reduce indebtedness. Thus, on June 30, 2017, the indebtedness coefficient was 0.41 compared to December 31, 2016, when it was 0.45.

ADPL-R-A share price rise continues in the second quarter of 2017. After the growth of 12.3% in the first quarter of 2017 and the price of HRK 155.00 on March 31, 2017, the price of the share on June 30, 2017 was HRK 165.73, which represents a growth of additional 6.9%.

Operating revenue per sales markets of AD Plastik Group, without affiliated companies

- Revenue of AD Plastik Group on the market of EU and Serbia increased by 0.8%
- Revenue of AD Plastik Group in Russia increased by 18.8%

EU and Serbian markets

In the EU and Serbia markets, more specifically at the plants in Solin and Zagreb in Croatia and at the location in Mladenovac in Serbia, operating revenue amounting to HRK 391 million was realized in the reporting period, which is 0.8% less compared to the same period last year. To a large extent, this is the consequence of the significant strengthening of the Kuna (HRK) against the Euro (EUR). Euro (EUR) exchange rate affects the amount of reported revenue, while the volume of production compared to the same period of the previous year is higher.

In the first six months of 2017, the share in operating revenues from this market amounts to 73.56% of total operating revenue, while the share of revenue from the Russian market increased significantly.

At the end of the second quarter of 2017, new deals with Ford and Hella (Volvo), worth over EUR 30 million, have been agreed. Production will start in 2018 (Ford Q4/2018, Hella Q2/2018), and annual revenue from these projects in full year production will amount to EUR 7 million.

Russian market (subsidiaries)

In the first six months of 2017, AD Plastik Group achieved a 18.8% increase in operating revenue on the Russian market, compared to the same period last year. The share of operating revenue from the Russian market amounts to 26.44% of the Group's total operating revenue. This indicates the stabilization of the Russian market, that is, the indications of its recovery. As noted above, strengthening of Ruble (RUB) against the Euro (EUR) at calculation in the Kuna (HRK) had a positive impact on consolidated revenue from Russian market, compared to the same period last year.

Car sales on the Russian market grew by 6% in the first half of 2017, compared to the same period last year. Only in June we recorded a growth of 15%. By using natural hedging for currency risk management, through constant price alignment with our business partners in Russia, the impact of the weakening of Ruble (RUB), that we expect in 2017, is alleviated.

AD Plastik Group with consolidation of the corresponding ownership part in affiliated companies

In order to present a clearer picture of business, a comparable, shortened, consolidated profit and loss account for the first half of 2016 and 2017 of AD Plastik Group was created, with the profit and loss accounts of the affiliated companies Euro Auto Plastic Systems s.r.l. Mioveni, Romania (50% ownership of AD Plastik d.d.) and Center for Research and Development of Automotive Industry Croatia (24% ownership of AD Plastik d.d.).
