Comment by Marinko Došen, President of the Management Board

AD Plastik Group's business results for the first six months were largely marked by the geopolitical situation, but also by the challenges that are a consequence of the pandemic and that most companies in the automotive industry have been facing. The still-present lack of semiconductors in the market, the halt in supply chains as well as the rise in the prices of raw materials and energy sources have been affecting business in almost all markets. However, the Russian-Ukrainian crisis had an additional negative impact on the results of Russian companies, whose revenue in the first six months was almost by 60 percent lower due to the almost complete car production halt in that market during the last three months.

Part of the Western car manufacturers left the Russian market, among them the Renault Group, which sold its shares in AvtoVAZ, our largest customer in that market, and Renault Russia. All Western car manufacturers and most of the Russian ones have stopped production, and therefore the suppliers operating in the Russian market were forced to do so. Announcements about the launch of part of the production in the second half of the year were made

but, considering the series of uncertainties brought by the current situation, great caution is needed in planning.

At the same time, the crisis with the lack of semiconductors has not yet been fully resolved in Europe, so the production capacities of certain car manufacturers in that market are still at lower levels than usual ones. However, the increasing intensity of development activities of car manufacturers is evident, which is also supported by new deals worth EUR 173.7 million sealed for this market in the reporting period.

In the first six months, operating revenue of HRK 433.09 million was generated, net financial debt was reduced, and the financial position of the Group is stable. Despite the challenges and uncertainties, an assessment of the asset recoverability of Russian companies was made as well as the value adjustment in the amount of HRK 75 million, which had a negative impact on the net operating results.

We have fully intensified and directed our commercial activities towards the European market, and we have also been working on development activities

within the company in order to offer our customers better and higher-quality solutions in the future and thereby expand our portfolio of products and services, as well as customers.

We are still primarily focused on preserving the financial stability of the company and minimizing negative impacts, but at the same time, we have been working on the development of new projects and the realization of existing ones, taking into account cost efficiency.

AD Plastik Group is a company that has knowledge and quality and has demonstrated its strength several times during its history. I am sure that we will come out of this crisis even stronger. This rather difficult period will certainly last for some time, but I believe that after it we will all be much more experienced and ready to face some new, more demanding and positive challenges.

Marinko Došen
President of the
Management Board

Financial results for the first six months of 2022

AD Plastik Group is comprised of the following companies during the reporting period:

- AD Plastik d.d., Croatia
 - AO AD Plastik Togliatti, Russia
 - ZAO AD Plastik Kaluga, Russia
 - AD Plastik Tisza Kft., Hungary
 - ADP d.o.o., Serbia
 - AD Plastik d.o.o., Slovenia
- (hereinafter: AD Plastik Group)

Significant impact of the Russian-Ukrainian crisis on AD Plastik Group's business results is evident in the financial results for the first six months of 2022. The operating revenue of the Group for the first six months amounted to HRK 433.09 million and compared to the same period last year, it was lower by 30.4 percent. In the parent company, it was lower by 23.1 percent, amounting to HRK 317.23 million.

The Russian-Ukrainian crisis is not abating, and it is still difficult to accurately assess its impact on the Russian car market. Despite the ongoing uncertainties in that market, an assessment of the investment recoverability was made in the parent company, in terms of receivables and investments in share capital, i.e. the recoverability of assets of Russian companies in the Group's consolidated report and value adjustment was made in the amount of HRK 75 million, which was reflected in the net results. Value adjustments in this regard have not been included in the presented EBITDA of the Group, so the normalized EBITDA amounted to HRK 18.58 million, representing a drop of 77.5 percent, while the parent company's

EBITDA was lower by 65 percent, amounting to HRK 18.07 million. With included value adjustments, a net loss of HRK 59.4 million was realized at the Group level, while the loss in the parent company amounted to HRK 81.2 million.

The global automotive industry is still facing challenges that are largely a consequence of the pandemic, such as disruptions in supply chains, lack of semiconductors, and rising prices of raw materials and energy sources, which significantly affect business. At the same time, the exposure of many manufacturers and suppliers within the industry was further increased by the outbreak of the Russian-Ukrainian crisis. One of them is AD Plastik Group, which has been generating on average 25 percent of its revenue in the Russian market.

In the second quarter of 2022, car production in Russia was almost completely stopped, which directly affected the results of Russian subsidiaries and the Group. The negative results were partly mitigated by positive exchange rate differences, caused by the significant strengthening of the ruble during the second quarter. During

that period, most European car manufacturers suspended their production activities in Russia until further notice. At the same time, the Renault Group, the biggest customer of AD Plastik Group in the Russian market, sold its shares in AvtoVAZ and Renault Russia to the NAMI institute, i.e. the city of Moscow, with the possibility of repurchase under the same conditions within six years. The new management of AvtoVAZ has announced the restart of production of certain Lada vehicle models which is planned for the second half of this year.

In addition to the significant increase in the prices of materials and energy sources in the global market, the lack of semiconductors continues to have the greatest impact on the movement of market indicators in the European market. At the same time, the increase in the development activities of car manufacturers is very noticeable, which is also supported by the new deals worth EUR 173.7 million sealed by AD Plastik Group in this market in the reporting period. In the observed period, active efforts have also been made to prepare for the realization of 44 new development projects for well-known customers.

Positive trends and significant growth in business indicators were recorded by the affiliated Romanian company EAPS, compared to the same period last year, and this is the result of significant orders from their main customer Dacia.

Despite the very demanding circumstances, net financial debt was reduced compared to the end of last year, both at the Group and the parent company level.

In the turbulent and challenging period in which it operates, the company's primary goals are to preserve financial stability and reduce negative impacts on business, as well as quality preparation for the start of new projects that will bring some new enthusiasm to AD Plastik Group.

In the reporting period, the strengthening of the Russian ruble exchange rate substantially affected the Group's net financial result, while in the parent company the dividend from the affiliated Romanian

company EAPS has had a positive impact, whereas, in contrast, the impairment of financial assets related to Russia has had a negative impact.

FINANCIAL POSITION

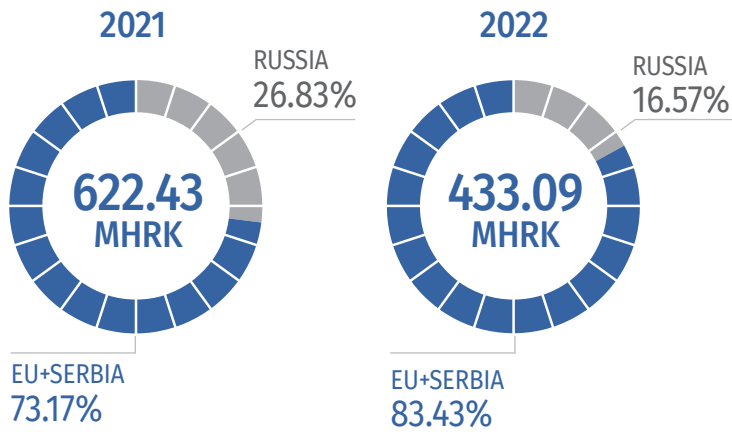

At the end of the first half of the year, a stable financial position was achieved. The Group's net financial debt decreased by HRK 49.28 million compared to the end of last year, so as of June 30, 2022 it amounted to HRK 307.08 million. In the parent company, it amounted to HRK 283.45 million and was lower by HRK 39.60 million. Lower EBITDA affected also the achieved NFD / EBITDA ratio, which was 5 at the Group level and 6.63 in the parent company respectively.

Indebtedness ratio was slightly improved at the Group level and as of June 30, 2022 it was 0.39, while at the end of 2021 it was 0.43. In the parent company it was the same as at the end of 2021, amounting to 0.38. Due to realized losses, in the observed period the return on equity (ROE) was negative and amounted to -6.8 percent at the Group level, i.e. -10.8 percent in the parent company.

Operating revenue per sales markets of AD Plastik Group

- Revenue of AD Plastik Group in EU and Serbian markets has decreased by 20.7 percent
- Revenue of AD Plastik Group in Russia has decreased by 57 percent

EU AND SERBIAN MARKETS

AD Plastik Group generated revenue in the amount of HRK 361.34 million in these markets in the first six months. Compared to the same period last year, it was lower by 20.7 percent, which is largely a consequence of the continuing problem in the supply chains within the industry, primarily the lack of semiconductors. Due to the current geopolitical situation and the significant decline of the Russian market, the overall share in the Group's revenue from the EU and Serbian markets has been growing.

In the first six months, 4.6 million new cars were registered in the EU market, representing a decline of 14 percent compared to the same period last year. All major markets recorded a decline in sales, thus Italy recorded a decline of 22.7 percent, France of 16.3 percent, Germany of 11 percent and Spain of 11.6 percent.

The Volkswagen Group still holds the largest market share of 24.7 percent in the reporting period, and it recorded a decline in sales of 18.5 percent. Stellantis with a 20.8 percent share recorded a decline of 22.5 percent, while the Renault Group recorded a decline in sales of 8.1 percent, holding a 10.6 percent market share.

In the reporting period, significant new deals were sealed in the European market with a total value of EUR 173.7 million, of which EUR 157.4 million for Stellantis Group and EUR 16.3 million for Suzuki and Motherson Group.

RUSSIAN MARKET

The geopolitical situation has caused significant changes in the automotive market of Russia too, which have also been seriously affecting the revenue of AD Plastik Group. Operating revenue from this market was lower by 57 percent and amounted to HRK 71.75 million. This also significantly reduces its share in the Group's total revenue, which account for 16.6 percent of the Group's total revenue in the reporting period.

The reason for this is primarily the production shut-down by all Western and most of domestic car manufacturers, as well as the withdrawal of some Western manufacturers from that market. This resulted in a significant decline in the number of newly registered cars by as much as 57.5 percent. In addition to the decline in production, the import of cars also decreased, their prices consequently increased, while at the same time consumer interest, i.e. their purchasing power, decreased. As a consequence of all the above mentioned facts, a total of only 370 thousand new vehicles were registered in the reporting period.

The Group's most significant customer in Russia is the Renault-Nissan-Mitsubishi Alliance, with the largest market share of 33.4 percent, which recorded a 60 percent decline in sales in the observed period. Likewise, as previously stated, the Renault Group sold its share in the ownership in AvtoVAZ to the NAMI Institute, and its shares in Renault Russia to the city of Moscow with the possibility of repurchase under the same conditions within six years. The Volkswagen Group is the second most important customer in this market, and in the reporting period it held a share of 8.9 percent and recorded a decline in sales of 71.4 percent.

AD Plastik Group with consolidation

of the corresponding ownership part in the affiliated company

In order to present a clearer picture of the business, a comparable, shortened, consolidated profit and loss account of AD Plastik Group for the first six months of 2021 and 2022 has been created, with

the profit and loss account of the affiliated company Euro Auto Plastic Systems s.r.l. Mioveni, Romania (50 percent of ownership of AD Plastik d.d.).

The operating revenue of AD Plastik Group with the consolidated corresponding ownership part in the affiliated company amounted to HRK 601.24 million,

recording a decrease by 20.4 percent compared to the same period last year. EBITDA amounted to HRK 45.51 million, representing a decrease of 52.2 percent.

ABBREVIATED P/L AND THE BALANCE SHEET OF THE AFFILIATED COMPANY EAPS

EAPS results have been included in the results of AD Plastik Group by the equity method. In the reporting period, their performance indicators increased, so operating revenue increased by 26 percent and amounted to HRK 345.77 million. Net profit amounted to HRK 33.81 million and increased by 162 percent compared to the same period last year. The main reasons for such trends are the greater number of Dacia working days compared to the previous year and the high efficiency of the factory in Mioveni. Investments in the observed period amounted to HRK 5.6 million. This company has no financial liabilities towards AD Plastik d.d., nor liabilities towards external entities, and as of June 30, 2022, its cash on account amounted to HRK 89.7 million

EAPS primarily generates its revenue in the Romanian market from the Dacia customer and, apart from that, it supplies its products to the markets of Algeria, Morocco, Iran, Brazil, Colombia, South Africa, Russia, etc.

The current geopolitical situation, inflation, and changes in the monetary policies of central banks have been strongly affecting the capital markets, which is also evident in the movements of major global indices. The same effect is visible in the movements of peer companies of AD Plastik Group, as well as in the domestic capital market. In the reporting period, the Crobex index decreased by 3.2 percent, while the price of the ADPL share weakened by 46.5 percent and as of June 30, 2022, amounted to HRK 88.6.

Earnings per share (EPS) in the observed period amounted to HRK -14.25, while the return on equity (ROE) was at the level of -6.8 percent.

Alternative performance measures

ADDENDUM 1

In addition to the financial performance measures defined by International Financial Reporting Standards (IFRS), AD Plastik Group also uses certain alternative performance measures in its reports, considering them useful for business performance analysis for investors. Alternative performance measures show comparative periods so that the company's results can be compared over different periods.

EBITDA AND EBITDA MARGIN

EBITDA (Earnings before Interest, Taxes, Depreciation and Amortization) represents the operating profit (operating revenue minus operating expenses) increased by amortization of tangible and intangible assets. The company also presents an EBITDA margin that represents a percentage of EBITDA relative to operating revenue.

NET PROFIT MARGIN

It is calculated by the ratio of realized net profit and operating revenue. The company uses this measure to track its profitability relative to operating revenue.

NET DEBT AND NET DEBT TO EBITDA

Net debt represents the sum of short-term and long-term liabilities to banks and short-term and long-term loans to non-banking companies, minus cash and cash equivalents. AD Plastik Group uses the ratio

of net debt to EBITDA as an indicator of financial stability and the company's ability to repay its financial obligations. When calculating the indicators on a quarterly basis, the EBITDA realized in the last four quarters is taken into account.

Cash	-9,797	-8,600
Net financial debt	323,054	283,455

ROE

This measure is used to monitor the realized return on equity. It is calculated on an annual and quarterly basis. When calculating the indicators on an annual basis, the ratio is the net profit of the current period and the average value of equity (the average value of equity at the end of the reporting period and equity at the beginning of the reporting period). At the quarterly level, it is calculated by the ratio of net profit for the last four quarters and the average value of equity (average value of equity at the end of the reporting period and equity at the end of the same period of the previous year).

CAPEX

Capital investments are indirect cash flow position and they are related to payments for tangible and intangible assets. This measure is used as an indicator of the use of funds to achieve future economic flows and ensure the distribution of funds in accordance with the Group's strategy.

INDEBTEDNESS RATIO

The indebtedness ratio is the ratio of total liabilities to total assets. This measure is used to monitor the company's financial risk in terms of growth of liabilities in relation to assets.

MARKET CAPITALIZATION

Market capitalization is the total market value of the company, and it is calculated as the product of the total number of shares and the last share price on the day of the reporting period.

Market capitalization (in HRK 000)	695,031	372,083

EPS AND P/E

These measures are used so that investors can analyze the value of the share. Earnings per share (EPS) are calculated by dividing net profit by the weighted average number of shares. The quarterly calculation uses the net profit realized in the last four quarters.

	31 DEC 2021	30 JUN 2022
Net profit of the period (in HRK 000)	32,723	-59,107
Average weighted number of shares (000)	4,143	4,147
EPS (HRK)	7.90	-14.25

P/E is the ratio of price to earnings per share (EPS). The price represents the share price on the last day of the reporting period, and in the quarterly calculation, net profit represents the realized profit in the last four quarters.
