A BRIEF OVERVIEW

A BRIEF OVERVIEW IN NUMBERS

AD PLASTIK GROUP

AD PLASTIK D.D.

COMMENT BY MARINKO DOŠEN, PRESIDENT OF THE MANAGEMENT BOARD

The operating results of AD Plastik Group, which are in front of you, show further recovery and stabilization of the market in the first quarter of 2024.

Although this year is marked by the start of serial production, namely regarding twenty-one new projects, their full impact on profitability and capacity utilization will be seen in the last quarter of this year, that is, mostly in the next year. The start of serial production is planned for most of the projects in the first half of the year, but six projects will start their serial production in the last quarter, when earlier started projects will also reach the quantities of the contracted production levels. We are ready and fully focused on industrialization and quality preparation and realization of the mentioned projects.

It was the beginning of serial production of few projects that had the greatest impact on the increase in operating revenue in the observed period, but we must not ignore the increase in customer orders for projects whose production started in previous periods, and which also have had a positive impact. Thus, the operating revenue of the Group for the first three months amounted to EUR 42.36 million, which was an increase of 28.1 percent in relation to the comparative period. EBITDA increased by 31.7 percent at the Group level and amounted to EUR 3.68 million, and the realized net profit recorded a growth of 56.9 percent and amounted to EUR 1.07 million.

Due to the present geopolitical turmoil and further uncertainties in the market, there is no room for relaxation, but it is a pleasure to see that the efforts we have been making are paying off. We have completely focused our sales activities on the European market and sealing deals for new projects that will bring better occupancy of production capacities in the future.

Our basic goals in the coming period are to continue preserving financial stability, increasing capacity utilization and profitability, and successful realization of new projects. At the same time, we are strongly focused on improvements in the areas of development and process automation.

Although the challenges are still present, we are determined in our efforts and have a clear vision of strengthening our position in the European car market and adapting to the new era of the industry.

Marinko Došen
President of the Management Board

FINANCIAL RESULTS

FINANCIAL RESULTS FOR THE FIRST QUARTER OF 2024

AD Plastik Group is comprised of the following companies during the reporting period:

- AD Plastik d.d., Croatia
- AD Plastik Tisza Kft., Hungary
- ADP d.o.o., Serbia
- AD Plastik d.o.o., Slovenia
- AO AD Plastik Togliatti, Russia
- ZAO AD Plastik Kaluga, Russia

(hereinafter: AD Plastik Group)

The continuation of AD Plastik Group's recovery is evident, which is confirmed by the financial results of the first quarter of 2024. Compared to the same period last year, the operating revenue of the Group grew by 28.1 percent, and at the level of the parent company, by 34.6 percent. The main reasons for the increase in revenue are to a lesser extent related to the increase in customer orders due to the growth of the market, and to a greater extent to the previously announced start of the realization of new projects and the revenue associated with them.

Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) amounted to EUR 3.68 million at the Group level and were 31.7 percent higher than EBITDA achieved in the first quarter of last year. EBITDA at the level of the parent company grew by 27.2 percent and amounted to EUR 2.81 million. The growth of customer orders had a positive effect on capacity utilization and consequently on the realized EBITDA, while project revenue in the reporting period was mostly related to the sale of tools. Its impact on the growth of capacity utilization and profitability will be noticeable in the second part of the year, when the serial production of most of the mentioned projects will begin and when the contracted serial quantities will be reached.

At the Group level, a net profit of EUR 1.07 million was achieved, which represents a growth of 56.9 percent in relation to the comparative period. The parent company also recorded a better net result, namely 306.4 percent higher than the first quarter of last year, and the realized net profit amounted to EUR 0.86 million.

The positive impact of the affiliated company from Romania on the Group's results in the reporting period was lower than in the comparative period. Such a result was expected

considering that the factory in Romania is in a transition phase, which means that the production of old vehicle models is ending, and the production of new ones is in the preparatory phase for launch. The profit of EAPS in the first three months of 2024 amounted to EUR 1.22 million, but during the year, an increase in serial quantities is expected, and therefore an increase in revenue and profitability.

Along with the fulfillment of increased customer demands, increased capacity utilization, and better cost efficiency, during the reporting period the focus of the company was still on the successful realization of new projects. Preparations for serial production and industrialization activities are in full swing, which is reflected in staff engagement, the use of production capacities for conducting trials and increased costs, but also in indebtedness. Indebtedness in the reporting period grew in relation to the comparative period, but in relation to the end of 2023, a slight decrease is visible. With the start of serial production of all projects by the end of the year, a further reduction in indebtedness is expected.

Although no new deals were sealed in the reporting period, the company's sales activities are still intensive and focused on the European market, and negotiations and quotation activities are currently underway.

The main goals of the company in the coming period are still the preservation of financial stability, increase of capacity utilization with better cost efficiency and growth of profitability, with a primary focus on the successful realization and start of serial production of all new projects.

NET FINANCIAL RESULT

The negative effect of exchange rate differences in the reporting period decreased, compared to the same period of the previous year, due to a significantly less weakening of the Russian ruble, but with the present weakening of the

Hungarian forint. The negative effect of interest was visible in the Group and the parent company due to the increase in variable interest rates and the higher cost of new indebtedness.

Although investments in new projects continued, due to the financing of tool making and investments in specific equipment and packaging, the effects of the collection of part of the tools were visible, so the indebtedness did not increase in the reporting period, but slightly decreased compared to the end of the previous year.

The Group's net financial debt amounted to EUR 45.5 million, which was EUR 0.41 million less compared to December 31, 2023. The parent company's net financial debt has decreased by EUR 0.82 million and amounted to EUR 43.1

million. The NFD/EBITDA indicators for the Group and the parent company were more favorable than at the end of 2023, but they are still at higher levels and their further normalization is expected in the coming periods. The indebtedness ratio at the Group level slightly increased compared to the end of the previous year, when it amounted to 0.48, and as of March 31, 2024, it amounted to 0.49, while in the parent company it increased from 0.44 to 0.47. Return on equity (ROE) amounted to -0.9 percent at the Group level, or 1.8 percent in the parent company.

OPERATING REVENUE AND MARKET TRENDS

AD Plastik Group's revenue in the EU and Serbian markets was 23.1 percent higher than in the comparable period and amounted to EUR 37.78 million. This was mostly influenced by the already mentioned increase in customer orders and the start of the realization of new projects and their related revenue. The share of revenue from these markets makes up 89.2 percent of the Group's total revenue.

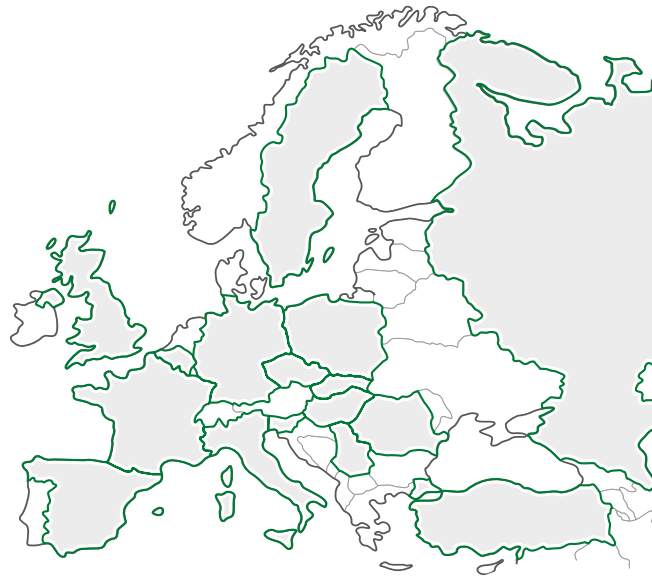

Revenue from the Russian market amounted to EUR 4.58 million, making up 10.8 percent of the Group's total revenue. Russian companies, viewed as a whole, are still self-sustaining and financially independent of the parent company.

Although a decrease in the number of newly registered vehicles in the EU was recorded in March, sales growth of 4.4 percent was still recorded during the first quarter and 2.77 million new passenger vehicles were registered in that period. Sales growth was recorded in all major European markets, so Germany has a sales growth of 4.2 percent in relation to the comparative period, France and Italy 5.7 percent, and Spain 3.1 percent.

The largest share in sales in the EU market is still held by the Volkswagen Group with a share of 24.9 percent and sales growth of 1.1 percent. It is followed by Stellantis with a share of 18.9 percent and sales growth of 2.5 percent, and Renault Group with a share of 10.3 percent and an almost unchanged number of vehicles sold compared to the first quarter of the previous year.

In the first three months of 2024, a significant increase in the number of

newly registered hybrid vehicles in the EU market is visible, by as much as 19.9 percent, while the growth in the sale of electric vehicles was much more modest, amounting to only 3.8 percent. There is also a visible decrease in the number of newly registered diesel and gasoline vehicles, 10.6 percent and one percent, respectively. The aforementioned changes in the market reduced the overall share of sold gasoline and diesel vehicles, which was lower than 50 percent in the reporting period.

AFFILIATED COMPANY EAPS

► ABBREVIATED P/L AND THE BALANCE SHEET OF THE AFFILIATED COMPANY EAPS

EAPS results have been included in the results of AD Plastik Group by the equity method. Generated operating revenue decreased by 0.4 percent, amounting to EUR 25.53 million, while net profit amounted to EUR 1.22 million. The net profit was lower than the one achieved in the first quarter of last year, primarily due to the cessation of production of the existing vehicle model, or the start of production of a new vehicle model. This is reflected in the revenue, but also in the expenses, that is, in the achieved profitability. During the year, full serial production volumes of the new vehicle will be realized, which will have an impact on revenue growth and profitability.

In the reporting period, the investments of this company amounted to EUR 3.2 million and were primarily aimed at the acceptance of new projects and the renovation of the machine park, which was started last year. EAPS has no financial liabilities towards AD Plastik d.d., nor liabilities towards external entities. As of March 31, 2024, its cash on account amounted to EUR 8.1 million.

EAPS primarily generates its revenue in the Romanian market from the Dacia customer and, to a lesser extent, it supplies its products to the markets of South Africa, Brazil, Colombia, Argentina, and Morocco.

ADPL SHARE

▶ Although there are still significant geopolitical instabilities and risks in the world, the capital markets recorded significant growth in the first three months of this year. All major global indices grew, including those related to the automotive industry, although the share price movements of peer companies generally do not have a positive sign number in the reporting period. The interest rates of the central banks are still at historically high levels, but they are expected to

decrease in the coming periods, which is also reflected in the movements on the capital markets.

The value of the ADPL share in the reporting period decreased by 2.9 percent compared to the end of 2023, and as of March 31, 2024 amounted to EUR 13.3, while the value of Crobox in the same period increased by 11.9 percent.

ALTERNATIVE PERFORMANCE MEASURES

In addition to the financial performance measures defined by International Financial Reporting Standards (IFRS), AD Plastik Group also uses certain alternative performance measures in its reports, considering them useful for business performance analysis for investors. Alternative performance measures show comparative periods so that the company's results can be compared over different periods.

EBITDA AND EBITDA MARGIN

EBITDA (Earnings before Interest, Taxes, Depreciation and Amortization) represents the operating profit (operating revenue minus operating expenses) increased by amortization of tangible and intangible assets. The company also presents an EBITDA margin that represents a percentage of EBITDA relative to operating revenue.

NET PROFIT MARGIN

When calculating the indicators on an annual basis, the ratio is the net profit of the current period and the average value of equity (the average value of equity at the end of the reporting period and equity at the beginning of the reporting period). At the quarterly level, it is calculated by the ratio of net profit for the last four quarters and the average value of equity (average value of equity at the end of the reporting period and equity at the end of the same period of the previous year).

CAPEX

Number of shares (000)	4,200	4,200
Market capitalization (in EUR 000)	57,534	55,854

EPS and P/E

	31 Dec 2023	31 March 2024
Net profit/loss of the period (in EUR 000)	-1,271	-878
Average weighted number of shares (000)	4,159	4,161
EPS (EUR)	-0.31	-0.21
